

The 9th Conference of the Pacific Rim Society for Fertility and Sterility

Theme: Cutting-edge Advances in Reproductive Medicine

Date: November 13(Wed) - 14(Thu), 2013

Venue: Kobe International Conference Center

Program

as of 2013/7/19

Session 1) Current Status of Regenerative Medicine in Reproduction

Mitinori Saitou (Kyoto University, Japan)

Jonathan L. Tilly (Harvard Medical School, U.S.A.)

2) Recent Advances in Pathophysiology and Treatment of PCOS

Benjamin K. Tsang (University of Ottawa, Canada)

P.C. Wong (National University of Singapore, Singapore)

3) Reproductive Medicine from the Perspective of FIGO <tentative>

Hamid Rushwan (The International Federation of Gynecology and Obstetrics, U.K.)

Gamal Serour (The International Federation of Gynecology and Obstetrics, Egypt)

4) IVM in the Future

Ri-Cheng Chian (McGill University, Canada)

Woo Sik Lee (CHA Gangnam Medical Center / CHA University College of Medicine, Korea)

5) Recent Advances in Genetics of Male Infertility and Clinical Treatment

Dolores J. Lamb (Baylor College of Medicine, U.S.A.)

Takehiko Ogawa (Yokohama City University School of Medicine, Japan)

6) Diminished Ovarian Reserve and Primary Ovarian Insufficiency:

Etiology and Treatment [Sponsored by Merck Serono](#)

Mark Bowman (The University of Sydney, Australia)

Yoshimasa Asada (Asada Ladies Clinic, Japan)

Zi-Jiang Chen (Shandong University, China)

Kazuhiro Kawamura (St. Marianna University School of Medicine, Japan)

7) Recent Advances in IVF-ET [Sponsored by Vitrolife](#)

Casaba Pribenszky (Szent Istvan University, Hungary)

Hong-Yuan Huang (Chang Gung Univ / Taiwanese Soc Reprod Med, Taiwan)

8) Current Advances and Problems in Fertility Treatment <tentative>

Nao Suzuki (St. Marianna University School of Medicine, Japan)

Ovarian tissue vitrification and transplantation on fertility preservation- from animal lab to clinical application

Yasushi Hirota (The University of Tokyo, Japan)

Defective decidualization with cellular senescence and its outcome

Tsunehisa Makino (Toubu Hospital, Japan)

[To be announced](#)

Luncheon Seminar

Nov. 13 Current Status of Oocyte Donation in U.S.A.

Vicken P. Sepilian (CHA Fertility Center, U.S.A.)

Nov. 14 Ovarian Physiology –an Update [Sponsored by Ferring Pharmaceuticals](#)

Kyung-Ah Lee (CHA University, Korea)

Akira Iwase (Nagoya University School of Medicine, Japan)

Special Lectures

1) The US Multiple Births Epidemic-1970-2010: Iatrogenic and Demographic Forces in Action

Eli Y. Adashi (Brawn University, U.S.A.)

2) When Will Infertility Be Explained? And Does It Matter?

Robert W. Rebar (The American Society for Reproductive Medicine, U.S.A.)
